STATINTL

We have received a copy of your letter to Mr. Burris dated 8 September, and believe there is no need to involve Mr. Burris further unless he so wishes.

The fact that you were hospitalized in this country is controlling and takes your case out of the jurisdiction of Public Law 110. The remedy, if any under these circumstances, is in the Federal Employees Compensation Act. If you wish to submit your claim to the Bureau of Employees Compensation, we will be glad to assist you in processing the case, but we repeat that the question of whether or not your illness was in line of duty would be for the Bureau to determine. We are unable to offer any assistance other than precessing of such a claim.

If you would like to have a CIA representative call upon you to render help specifically in processing your claim with the Bureau of Employees Compensation, our offer to so assist is still open.

Very truly yours,

STATINTL
